Offers that fail to furnish required representations or information, or reject the terms and conditions of the solicitation may be excluded from consideration.

(c) PERIOD FOR ACCEPTANCE OF OFFERS. See Addendum 1.

(d) PRODUCT SAMPLES. When required by the solicitation, product samples shall be submitted at or prior to the time specified for receipt of offers. Unless otherwise specified in this solicitation, these samples shall be submitted at no expense to the Government, and returned at the sender's request and expense, unless they are destroyed during preaward testing.

(e) MULTIPLE OFFERS. Offerors are encouraged to submit multiple offers presenting alternative terms and conditions or commercial items for satisfying the requirements of this solicitation. Each offer submitted will be evaluated separately.

(f) LATE SUBMISSIONS, MODIFICATIONS, REVISIONS, AND WITHDRAWALS OF OFFERS.

(1) Offerors are responsible for submitting offers, and any modifications, revisions, or withdrawals, so as to reach the Government office designated in the solicitation by the time specified in the solicitation. If no time is specified in the solicitation, the time for receipt is 4:30 p.m., local time, for the designated Government office on the date that offers or revisions are due.

(2) (i) Any offer, modification, revision, or withdrawal of an offer received at the Government office designated in the solicitation after the exact time specified for receipt of offers is "**late**" and will not be considered unless it is received before award is made, the Contracting Officer determines that accepting the late offer would not unduly delay the acquisition; and—

L2.05-6 Cont'd.

(A) If it was transmitted through an electronic commerce method authorized by the solicitation, it was received at the initial point of entry to the Government infrastructure not later than 5:00 p.m. one working day prior to the date specified for receipt of offers; or

(B) There is acceptable evidence to establish that it was received at the Government installation designated for receipt of offers and was under the Government's control prior to the time set for receipt of offers; or

(C) If this solicitation is a request for proposals, it was the only proposal received.

(ii) However, a late modification of an otherwise successful offer, that makes its terms more favorable to the Government, will be considered at any time it is received and may be accepted.

(3) Acceptable evidence to establish the time of receipt at the Government installation includes the time/date stamp of that installation on the offer wrapper, other documentary evidence of receipt maintained by the installation, or oral testimony or statements of Government personnel.

(4) If an emergency or unanticipated event interrupts normal Government processes so that offers cannot be received at the Government office designated for receipt of offers by the exact time specified in the solicitation, and urgent Government requirements preclude amendment of the solicitation or other notice of an extension of the closing date, the time specified for receipt of offers will be deemed to be extended to the same time of day specified in the solicitation on the first work day on which normal Government processes resume.

(5) Offers may be withdrawn by written notice received at any time before the exact time set for receipt of offers. Oral offers in response to oral solicitations may be withdrawn orally. If the solicitation authorizes facsimile offers, offers may be withdrawn via facsimile at any time before the exact time set for receipt of offers, subject to the conditions specified in the solicitation concerning facsimile offers. An offer may be withdrawn in person by an offeror or its authorized representative if, before the exact time set for receipt of offers, the identity of the person requesting withdrawal is established and the person signs a receipt for the offer.

(2) The Government may reject any or all proposals if such action is in the Government's interest.

(3) The Government may waive informalities and minor irregularities in proposals received.

(4) The Government intends to evaluate proposals and award a contract after conducting discussions with offerors whose proposals have been determined to be within the competitive range. If the Contracting Officer determines that the number of proposals that would otherwise be in the competitive range exceeds the number at which an efficient competition can be conducted, the Contracting Officer may limit the number of proposals in the competitive range to the greatest number that will permit an efficient competition among the most highly rated proposals. Therefore, the offeror's initial proposal should contain the offeror's best terms from a price and technical standpoint. The Government reserves the right not to conduct discussions as determined by the Contracting Officer.

(h) **MULTIPLE AWARDS.** The Government may accept any item or group of items of an offer, unless the offeror qualifies the offer by specific limitations. Unless otherwise provided in the Schedule, offers **may be** submitted for quantities less than those specified. The Government reserves the right to make an award on any item for a quantity less than the quantity offered, at the unit prices offered, unless the offeror specifies otherwise in the offer.

L74 TYPE OF CONTRACT (APR 1984)

The Government contemplates award of a **Firm Fixed Price Requirements Type Contract** resulting from this solicitation.

(FAR 52.216-1)

EVALUATION FACTORS FOR AWARD**M13 EVALUATION OF OFFERS INVOLVING MULTIPLE MINES (DESC FEB 1970)**

(a) Unless the offeror expressly reserves the right to supply coal under the item from any or all of the mines listed thereunder, the Government at its option may designate the mine or mines of those offered from which the coal required under the item may be supplied. The mine or mines from which coal shall be supplied under the item will be designated in the award.

(b) If the offeror expressly reserves the right to supply coal under an item from any or all of the mines listed under such item, the Government, in the event of award thereon, will accept coal under that item from any or all of the mines listed.

(DESC 52.208-9F25)

M14 EVALUATION OF OFFERS (COAL) (DESC DEC 1998)

Offers will be evaluated on the basis of the following:

(a) The number of "As Received B.T.U. per one cent delivered at destination" of the coal offered from any mine is computed by the following formula: The percentage arrived at by subtracting the percent of moisture from 100 percent shall be multiplied by the product of the dry B.T.U. per pound times 2,000 (for net tons) or 2,204 (for metric tons). The product of this multiplication shall be used as a numerator to be divided by the sum of the delivered cost per ton, per line item, expressed in cents.

(b) In applying the above formula, the following will be used:

- (1) The offeror's guaranteed moisture; and
- (2) The dry B.T.U. per pound guaranteed by the offeror.

M14 Cont'd.

(c) If the offer provides the Government with an option to designate from which of the listed mines for an item that coal may be supplied, the offer on that item will be evaluated on the basis of the number of "As Received B.T.U. per one cent delivered at destination" of coal from that listed mine that produces coal having the highest number of "As Received B.T.U. per one cent delivered at destination." If a quantity of coal less than the total tonnage required under the item is awarded the offeror for production from this mine, the offer on the item will be evaluated as to the balance of such required tonnage on the basis of the number of "As Received B.T.U. per one cent delivered at destination," of coal from that listed mine that produces coal having the next highest number of "As Received B.T.U. per one cent delivered at destination." This same procedure will apply in evaluating coal from the remaining mines offered under the item until the total quantity of the item is awarded.

(d) If the offer under any item reserves to the offeror the right to supply coal from any or all of the mines listed thereunder, the offer on that item will be evaluated on the basis of the number of "As Received B.T.U. per one cent delivered at destination" of coal from the listed mine for that item that produces coal having the lowest number of "As Received B.T.U. per one cent delivered at destination."

(e) The bottom size specified for double-screened coal is considered a minimum only. Accordingly, offers for any item requiring double-screened coal where the bottom size of coal offered is larger than the bottom size specified for such item will not be rejected, but will be evaluated on the same basis as all other offers received.

(f) The offeror shall indicate guarantee on all elements of the specifications.

(g) The Government will determine, based upon published and special reports issued by the U.S. Army Petroleum Center Laboratory, if the coal offered from the "mine" or "mines" set forth in the offer meets all the requirements of the specifications shown on the Schedule. Those coal offers that do not meet the specifications and those coal offers for which there are no special or published reports will be rejected. It shall be incumbent upon offerors to insure that coal offered has been sampled by the U.S. Army Petroleum Center Laboratory prior to submitting an offer. A coal size required by the solicitation and offered for which no such reports are available will be evaluated on the nearest coal size, as determined by the Government, for which reports exist.

(h) For coal to be delivered to U.S. installations in Germany only, offerors offering other than coal from the U.S. must have the coal sampled and analyzed by an approved laboratory using ASTM or "equivalent national" standards and provide the commercial analysis report in lieu of an analysis report by the U.S. Army Petroleum Center. ADDENDUM #2

OTHER REGULATORY AND LOCAL CLAUSES

DESCRIPTION SPECIFICATIONS

C13 SIZE, SIZE CONSIST, AND PREPARATION (DESC AUG 1997)

(a) DEFINITIONS.

(1) **TOP SIZE.** The sieve (screen) designating the upper limit or top size of a series of screens with the smallest openings upon which coal is cumulatively retained. This is cited as a percentage by weight of coal larger than the defined top size. This requirement is found in the Schedule section of the solicitation/contract (e.g., no more than 5% retained on a 1 ¼ inch screen). The defined top size is not to be confused with the size of the largest lot.

(2) **BOTTOM SIZE.** The sieve (screen) designating the lower limit or bottom size of a series with the largest openings through which the coal passes. This is cited as a percentage by weight of coal smaller than the defined bottom size that passes through a defined bottom size screen. This requirement is found in the Schedule section of the solicitation/contract (e.g., no more than 15 percent passing through a ¼ inch screen). The defined bottom size is not to be confused with the size of the smallest particles in the lot.

(b) **TEST METHODS.** ASTM D 4749-87, Standard Test Method for Performing the Sieve Analysis of Coal and Designating Coal Size (Reapproved 1994); ASTM D 2013-86, Preparing Coal Samples for Analysis Reapproved 1994).

(c) **SIEVE APPARATUS.**

(1) In addition to conforming to all other specifications set forth in this contract, all coal delivered shall be substantially of the size or sizes specified, determined as follows:

(i) In all double screened coal (known as prepared sizes), the maximum and/or minimum top size specified shall pass through a round hole perforated screen (or its equivalent), the perforations of which are equal in diameter to the maximum and/or minimum top size specified. The maximum and/or minimum bottom size specified shall be retained on a round hole perforated screen (or its equivalent), the perforations of which are equal in diameter to the maximum and/or minimum bottom size specified.

(ii) In all single screened coal (known as screenings, slack, or mechanically fired steam coal) the maximum and/or minimum top size specified shall pass through a round hole perforated screen (or its equivalent), the perforations of which are equal in diameter to the maximum and/or minimum top size specified. As single screened coal is purely a resultant product, no maximum and/or minimum bottom can be specified and no bottom screening required.

(iii) Where "crushed run of mine" or "crushed prepared sizes" are accepted upon award for screenings and/or slack coal as described in (ii) above, the maximum and/or minimum top sizes may be determined by adjusting the crusher to that position where the crushed product will not exceed the maximum top size or be less than the minimum top size required. Where such crushed coal is furnished, no screening is required. Run of mine coal shall be full of the mine with no sizes removed. The maximum size will be limited by the contract terms; and lumps exceeding that maximum size shall not be removed but shall be broken or crushed to come within the maximum size limitations.

(d) **SAMPLE SIZE.**

(1) When a definite size consist is required, the Schedule for coal will specify the minimum percentage for coal which will be retained or the maximum percentage of coal that will pass through the screen(s).

(2) A size consist sample shall be no less than 1,000 pounds which shall be drawn in equal increments from not to exceed 5 carloads or truckloads of coal in any one shipment.

(3) The size consist sample shall be drawn in equal increments from 9 points in the car(s) or truck(s). Lay out 3 diagonals (example: [\\\]) across the car(s) or truck(s), beginning at the right front corner, diagonally across the car(s) or truck(s) to the other side. Three equally spaced collection points shall be designated for each diagonal. The first increments should be taken from the inside of the first diagonal {\|.}. The 9th increment should be taken from the left rear corner of the 3rd diagonal in the car(s) or truck(s) [*\\\].

(e) **SAMPLING.** Where single screened and/or crushed coal of a definite size consist is required by the contract, all coal delivered there under shall meet or be better than the size consist specified in the Schedule for coal as determined and reported in accordance with ASTM D 4749, using Round-hole screens. Sampling will not be required if it is obvious upon a visual inspection that the coal fails to meet size consist requirements, and that fact is acknowledged by a Contractor's representative. The screening test at the receiving activity shall be conclusive as to whether the size consist requirement has been met.

(f) **NOTIFICATION OF REJECTION AND SAMPLE RETENTION.**

(1) If the size consist of the car(s) or truck(s) is sampled and screened as described above and fails to meet the sizing required by the Schedule, the coal may be rejected by the Contracting Officer, the Contractor will be required to remove the coal at its expense. As an alternative, coal rejected for noncompliance of size consist requirements may be accepted at an adjusted price recommended by the receiving activity and agreed to by the Contractor and the Contracting Officer.

(2) The screened sample shall be retained in a protected place for seven full days, not counting the day the sample is screened, and shall be available for inspection by the Contractor and/or the Contracting Officer.

| Example: Sample Screening Date: | Nov 15 |

C20 SULFUR CONTENT GUARANTEE (DESC MAY 1987)

The sulfur content of the coal to be furnished under this solicitation must be that percentage specified in the Schedule under MINIMUM QUALITY, or that percentage prescribed by applicable state law or local ordinance in effect on the date specified for receipt of offers, whichever is lower. In the event an applicable State law or local ordinance prescribes a lower percentage of sulfur content than that specified in this solicitation, the lower percentage shall be inserted in the Guaranteed Analysis and the applicable State law or local ordinance shall be identified in the Schedule. (DESC 52.246-9FPK)

INSPECTION AND ACCEPTANCE

E1.03 CONTRACTOR INSPECTION RESPONSIBILITIES (COAL) (DESC JUN 1999)

(a) The Contractor shall provide and maintain, and assure that subcontractors provide and maintain, an inspection system acceptable to the Government. The Contractor shall prepare, and assure that subcontractors prepare, a written description covering their procedures and operations directly relating to the supplies to be furnished under this contract: (1) receiving, (2) sampling, (3) testing, (4) calibration of testing and measuring equipment, (5) loading and shipping, and (6) records and reports. The description shall also include the designation of key operational positions. The inspection system, including operations related thereto and performed pursuant to this clause, shall be subject to surveillance by the Quality Representative.

(b) The Contractor shall either perform, or provide an independent laboratory acceptable to the Government (see the QUALITY PROVISIONS clause) to perform, all sampling and acceptance tests set forth in this contract in order to substantiate conformance of such supplies to the quality required by this contract; when such tests are performed at origin on supplies to be accepted at destination, the Contractor shall further provide, or cause to be provided, at the point and time of acceptance, such evidence of quality that will enable the Government to verify original test results. Such evidence of quality shall consist of an analytical test report, which shall also include barge, railcar and/or truck numbers, mine and seam (or blends) from which the coal originated. The analytical test report will include the air dry loss, as well as the weights of the samples and the number of increments taken. The method of sampling will also be annotated somewhere in the analysis.

(c) At the time of each shipment under this contract, the Contractor shall prepare and furnish to the Government a Material Inspection and Receiving Report (DD Form 250 series) in the manner and to the extent required by DoD FAR Supplement Appendix F, Material Inspection and Receiving Report, or as stated elsewhere in the contract. The mine and seam (or blends) from which the coal originated will also be annotated on the DD Form 250.

(d) The Contractor shall inspect, prior to loading, all shipping conveyances to determine that such conveyances are suitable for loading.

(e) The Contractor shall keep all quality and quantity records, including DD Form 250 series documents, complete and available to the Government during the performance of this contract and for 3 years after final payment under this contract.

(DESC 52.246-9FC1)

RESPONSIBILITY FOR INSPECTION. Unless otherwise specified in the contract, the Contractor is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract, the Contractor may use its own or any other facilities suitable for performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any inspection deemed necessary to assure supplies and services conform to the contract specifications.

(a) **QUALITY CONFORMANCE INSPECTION.** Individual lots shall be examined as specified herein and subjected to tests for all requirements cited in the Schedule.

(b) **INSPECTION LOT.** A lot shall consist of a heterogeneous mixture of coal to be represented by a gross sample.

(c) **SAMPLING.**

(3) Disregard Table 3 (D 4749) for gross sample quantity and utilize the Raw (Uncleaned Coal) section of Table 2, ASTM D 2234. Collect the gross sample for sieve analysis by doubling the number of increments listed for Raw (Uncleaned Coal), according to top size, for General Purpose Sampling Procedure (Table 2). The actual weight of the gross sample tested will be shown on the analytical test report. This gross sample is intended for sieve analysis determination only.

(4) When specified in the contract.

(f) LABORATORY ACCEPTANCE.

(1) For evaluation by the Government, the Contractor's laboratory will have available and submit to the QR, at a minimum, the information required by the Sample Worksheet (FIG.X1.1), ASTM D 4182, unless evidence of laboratory accreditation from an independent laboratory association can be supplied by the Contractor.

(2) When applicable, the following requirements will be added as a continuation to the sample worksheet evaluation:

VII GRINDABILITY (Hardgrove - Machine).

A Date of last calibration. Was calibration chart prepared?

B Is revolution counter operating and does it stop automatically after setting at 60 revolutions?

C Are sieving and weighing operations carried out without delay?

VIII FREE-SWELLING INDEX.

A Are proper temperature and rate of temperature rise for either electric or gas heating maintained?

B Do test buttons compare well to the standard profiles?

IX SIEVE ANALYSIS/COAL SIZE.

- A Are round hole sieves with a staggered pattern used when sizing for 1/4" or larger coal?
- B Do sieve plates show any visible damage?
- C Are sieve plates painted, plated, or coated?
- D Is a continuous mechanical sieve shaker used?
- E Before and after sieving, is the test sample/sieved coal weighed to within .5% or better? (DESC 52.246-9FC5)

E3 CERTIFICATE OF CONFORMANCE (APR 1984)

(a) When authorized in writing by the cognizant Contract Administration Office (CAO), the Contractor shall ship with a Certificate of Conformance any supplies for which the contract would otherwise require inspection at source. In no case shall the Government's right to inspect supplies under the inspection provisions of this contract be prejudiced. Shipments of such supplies will not be made under this contract until use of the Certificate of Conformance has been authorized in writing by the CAO, or inspection and acceptance have occurred.

(b) The Contractor's signed certificate shall be attached to or included on the top copy of the inspection or receiving report distributed to the payment office or attached to the CAO copy when contract administration (Block 10 of the DD Form 250) is performed by the Defense Contract Administration Services. In addition, a copy of the signed certificate shall also be attached to or entered on copies of the inspection or receiving report accompanying the shipment.

(c) The Government has the right to reject defective supplies or services within a reasonable time after delivery by written notification to the Contractor. The Contractor shall in such event promptly replace, correct, or repair the rejected supplies or services at the Contractor's expense.

(d) The certificate shall read as follows:

"I certify that on _____ [insert date], the _____ [insert Contractor's name] furnished the supplies or services called for by Contract No. _____ via _____ [Carrier] on _____ [identify the bill of lading or shipping document] in accordance with all applicable requirements. I further certify that the supplies or services are of the quality specified and conform in all respects with the contract requirements, including specifications, drawings, preservation, packaging, packing, marking requirements, and physical item identification (part number), and are in the quantity shown on this or on the attached acceptance document."

E5 INSPECTION OF SUPPLIES - FIXED-PRICE (AUG 1996)

(a) **DEFINITION. Supplies**, as used in this clause, includes but is not limited to raw materials, components, intermediate assemblies, end products, and lots of supplies.

(b) The Contractor shall provide and maintain an inspection system acceptable to the Government covering supplies under this contract and shall tender to the Government, for acceptance, only supplies that have been inspected in accordance with the inspection system and have been found by the Contractor to be in conformity with contract requirements. As part of the system, the Contractor shall prepare records evidencing all inspections made under the system and the outcome. These records shall be kept complete and made available to the Government during contract performance and for as long afterwards as the contract requires. The Government may perform reviews and evaluations as reasonably necessary to ascertain compliance with this paragraph. These reviews and evaluations shall be conducted in a manner that will not unduly delay the contract work. The right of review, whether exercised or not, does not relieve the Contractor of the obligations under the contract.

(c) The Government has the right to inspect and test all supplies called for by the contract, to the extent practicable, at all places and times, including the period of manufacture, and in any event before acceptance. The Government shall perform inspections and tests in a manner that will not unduly delay the work. The Government assumes no contractual obligation to perform any inspection and test for the benefit of the Contractor unless specifically set forth elsewhere in this contract.

(d) If the Government performs inspection or test on the premises of the Contractor or a subcontractor, the Contractor shall furnish, and shall require subcontractors to furnish, at no increase in contract price, all reasonable facilities and assistance for the safe and convenient performance of these duties. Except as otherwise provided in the contract, the Government shall bear the expense of Government inspections or tests made at other than the Contractor's or subcontractor's premises; PROVIDED, that in case of rejection, the Government shall not be liable for any reduction in the value of inspection or test samples.

(e) (1) When supplies are not ready at the time specified by the Contractor for inspection or test, the Contracting Officer may charge to the Contractor the additional cost of inspection or test.

(2) The Contracting Officer may also charge the Contractor for any additional cost of inspection or test when prior rejection makes reinspection or retest necessary.

(f) The Government has the right either to reject or to require correction of nonconforming supplies. Supplies are nonconforming when they are defective in material or workmanship or are otherwise not in conformity with contract requirements. The Government may reject nonconforming supplies with or without disposition instructions.

(g) The Contractor shall remove supplies rejected or required to be corrected. However, the Contracting Officer may require or permit correction in place, promptly after notice, by and at the expense of the Contractor. The Contractor shall not tender for acceptance corrected or rejected supplies without disclosing the former rejection or requirement for correction, and, when required, shall disclose the corrective action taken.

(h) If the Contractor fails to promptly remove, replace, or correct rejected supplies that are required to be removed or to be replaced or corrected, the Government may either (1) by contract or otherwise, remove, replace, or correct the supplies and charge the cost to the Contractor or (2) terminate the contract for default. Unless the Contractor corrects or replaces the supplies within the delivery schedule, the Contracting Officer may require their delivery and make an equitable price reduction. Failure to agree to a price reduction shall be a dispute.

(i) (1) If this contract provides for the performance of Government quality assurance at source, and if requested by the Government, the Contractor shall furnish advance notification of the time (i) when Contractor inspection or tests will be performed in accordance with the terms and conditions of the contract and (ii) when the supplies will be ready for Government inspection.

(2) The Government's request shall specify the period and method of the advance notification and the Government representative to whom it shall be furnished. Requests shall not require more than 2 workdays of advance notification if the Government representative is in residence in the Contractor's plant, nor more than 7 workdays in other instances.

(j) The Government shall accept or reject supplies as promptly as practicable after delivery, unless otherwise provided in the contract. Government failure to inspect and accept or reject the supplies shall not relieve the Contractor from responsibility, nor impose liability on the Government, for nonconforming supplies.

(k) Inspections and tests by the Government do not relieve the Contractor of responsibility for defects or other failures to meet contract requirements discovered before acceptance. Acceptance shall be conclusive, except for latent defects, fraud, gross mistakes amounting to fraud, or as otherwise provided in the contract.

(l) If acceptance is not conclusive for any of the reasons in paragraph (k) hereof, the Government, in addition to any other rights and remedies provided by law, or under other provisions of this contract, shall have the right to require the Contractor (1) at no increase in contract price, to correct or replace the defective or nonconforming supplies at the original point of delivery or at the Contractor's plant at the Contracting Officer's election, and in accordance with a reasonable delivery schedule as may be agreed upon between the Contractor and the Contracting Officer; PROVIDED, that the Contracting Officer may require a reduction in contract price if the Contractor fails to meet such delivery schedule, or (2) within a reasonable time after receipt by the Contractor of notice of defects or nonconformance, to repay such portion of the contract as is equitable under the circumstances if the Contracting Officer elects not to require correction or replacement. When supplies are returned to the Contractor, the Contractor shall bear the transportation cost from the original point of delivery to the Contractor's plant and return to the original point when that point is not the Contractor's plant.

E5 Cont'd

If the Contractor fails to perform or act as required in (1) or (2) above and does not cure such failure within a period of 10 days (or such longer period as the Contracting Officer may authorize in writing) after receipt of notice from the Contracting Officer specifying such failure, the Government shall have the right by contract or otherwise to replace or correct such supplies and charge to the Contractor the cost occasioned the Government thereby. (FAR 52.246-2)

E24 DESTINATION INSPECTION AND ACCEPTANCE (COAL) (DESC JAN 1999)

(a) All coal delivered hereunder shall be inspected at destination to determine (1) that it is reasonably free from slate, bone, sulfur balls, dirt, and other characteristic impurities, and from extraneous foreign matter, including excessive water or moisture in truck delivering coal, (2) that it is not oxidized or weathered, (3) that it is properly prepared and reasonably free from fines, and undersize and oversize coal, and (4) that it is of analytical quality equal to or better than the quality required as set forth in the Minimum Specification Quality Required section of the Schedule of Supplies as evidenced by the Contractor's analytical test report identified with said shipment.

(b) If, upon inspection, the Government determines (1) that any coal delivered hereunder is not reasonably free from slate, bone, sulfur balls, dirt, and other characteristic impurities, or extraneous foreign matter, or in the case of truck delivered coal, from excessive moisture or water, (2) that it is oxidized and/or weathered, or (3) that it is not of analytical quality equal to or better than the quality required as set forth in the Minimum Specification Quality Required section of the Schedule of Supplies as evidenced by the Contractor's analytical test report identified with said shipment, the Contracting Officer may reject the coal by prompt telephonic or telegraphic notice, confirmed in writing, to the Contractor. All notices of rejection shall state the car numbers, or in the case of truck or barge delivery, the proper identifying data, containing the rejected coal and the specific reason or reasons for the rejection. Rejections made by other than the Contracting Officer, or those specifically designated in the contract to make rejections, shall be null and void.

(c) If such notice specifies that the coal rejected is (1) not reasonably free from slate, bone, dirt, and other characteristic impurities or (2) oxidized or weathered, the Contractor may, by telegraphic notice not later than 48 hours after its receipt of the rejection notice, request the Government to sample and analyze the rejected coal. If the coal has been rejected because it is not reasonably free from slate, bone, dirt, and other characteristic impurities, the sample will be analyzed for the dry ash content. If the coal has been rejected because it is oxidized or weathered, the sample will be analyzed for its free swelling index. The collection and preparation of such samples shall be in accordance with the "Quality Assurance Procedures for Receipt of Coal Procured through DESC (DESCM 4185.1)," except that the rejected coal shall not be unloaded and the samples shall be taken from the tops of the cars, trucks, or barges. The Contractor may be present at the taking of such sample, but the absence of the Contractor shall not be grounds for setting aside the results of the analysis of the samples. The United States Department of Energy (DOE) or U.S. Army Petroleum Center (USAPC) shall make the analysis of each such sample, and such analysis shall be final and conclusive on the parties hereto. In the event that (1) the Contractor has not guaranteed the analysis, or has not represented that the coal will meet the free swelling index requirements of the Schedule, and the rejected coal is found to be equal to or better than the contract requirements, with respect to dry ash and/or the free swelling index, or (2) the Contractor has guaranteed the analysis and has represented the coal would meet the free swelling index required in the Schedule, and the rejected coal is found by such analysis to be equal to or better than the requirement of the guaranteed dry ash analysis, or equal to or better than the represented free swelling index, the Contracting Officer shall withdraw such notice of rejection and accept the previously rejected coal. If previously rejected coal is accepted pursuant to this paragraph (c), the Government shall pay any demurrage that has accrued with respect thereto, but the Government shall have no further liability to the Contractor whatsoever on account of such previous rejection. Previously rejected coal not acceptable under this paragraph (c), however, shall be deemed to be coal rejected under (b) above, and such rejection shall be effective as of the date of the original notification thereof; and in the event of such rejection, the Contractor shall promptly pay to the Government the sum of \$75 for each such analysis applicable thereto to cover the cost of making each such analysis.

(d) If the notice of rejection under (b) above specifies that the coal is rejected because of excess extraneous foreign matter, or because of large sulfur balls, large slabs of rock or slate, or other material that cannot be reasonably crushed into a sample, or in the case of truck delivered coal, for excessive water or moisture, the Contractor shall promptly remove the coal so rejected from the premises at its own expense. The Contractor has the right to inspect all coal visually inspected and rejected because of excess foreign matter or water as described above.

(e) In the event the coal is rejected pursuant to (b) above, the Contractor shall reimburse the Government for freight, if any, paid by the Government for the transportation of such rejected coal from the mine or mines to destination; and the Government, at its option, may exercise one or more of the following rights:

- (1) Require the Contractor at the Contractor's expense to remove the rejected coal;
- (2) Require the Contractor at the Contractor's expense to replace the rejected coal with an equal quantity of coal which meets the requirements of this contract;
- (3) Accept the previously rejected substandard coal in which event the contract price shall be reduced in an amount to be agreed upon by the Contractor and the Contracting Officer. Reductions in price for acceptance of previously rejected substandard coal shall be recommended by and acceptable to the using service initiating the rejection. Price reductions purporting to be made or agreed to on behalf of the Government by anyone other than the Contracting Officer shall be null and void. When, because of low or no coal supply at an activity, it is necessary to accept previously rejected, substandard coal, failure to agree to the amount of the reduction shall be deemed a question of fact within the meaning of paragraph (d), Disputes, of the CONTRACT TERMS AND CONDITIONS - COMMERCIAL ITEMS clause;

E24 Cont'd.

(4) Notwithstanding any price reduction pursuant to (3) above, compensate the Government for acceptance of coal not of the kind or size specified, or not reasonably free from slate, bone, sulfur, dirt, or other impurities, or coal that is oxidized or weathered, the Government may sample and analyze the coal pursuant to the SAMPLING AND EVALUATION clause, and if the DOE or USAPC analysis established that the coal is not of the quality required by the analysis specified in the contract, the contract price reduced pursuant to (3) above shall be further reduced in the event the analysis is not guaranteed, in an amount to be determined pursuant to subparagraph (b)(3), of the SAMPLING AND EVALUATION clause;

(5) Decline to accept additional coal from the mine or mines from which the unsatisfactory coal was shipped and authorize the Contractor in writing to supply coal from other mines producing coal of the quality required under the contract without any increase in the contract price or in the transportation charges to the Government; and/or

(6) As provided in paragraphs (f), Excusable Delays, and (m), Termination for Cause, of the CONTRACT TERMS AND CONDITIONS - COMMERCIAL ITEMS clause, terminate the Contractor's right to proceed with performance of the contract and purchase coal elsewhere, in which event any excess costs occasioned thereby shall be charged to the account of the Contractor.

(f) The Contractor shall bear any demurrage that may accrue on and after the date of notification of rejection pursuant to (b) above; provided, however, that the Government shall pay demurrage accruing subsequent to acceptance, pursuant to (e)(3) above, of previously rejected coal.

(g) If upon visual inspection double-screened coal obviously exceeds the top size or obviously fails to meet the minimum bottom size, or if upon visual inspection single-screened coal obviously exceeds the top size specified, the Contracting Officer may reject the coal by prompt telegraphic or telephonic notice confirmed in writing to the Contractor. All notices of rejection shall state the car numbers containing the oversize and/or the undersize coal, the approximate size of the coal declared to be oversize, and/or undersize, and the approximate percentage of the oversize and/or undersize coal. Coal so rejected may be later accepted at an adjustment in price in accordance with (e)(3), (e)(5), and (f) of this clause.

(DESC 52.246-9FJ5)

E33.03 CONSIDERATION FOR EXCESS SULFUR AND ASH (COAL) (DESC JUL 1999)

In addition to those rights provided under the SAMPLING AND EVALUATION clause, the Government will take the following actions if coal delivered under this contract has not met the Minimum Specification Quality Required for sulfur and ash, based on U.S. Army Petroleum Center Analysis Reports:

(a) Assess damages against the Contractor based upon the unit price of the coal as follows:

For each 0.10 percent (one-tenth of one percent) that the sulfur content exceeds the Minimum Specification Quality Required, (DESC Form 6.37-S), the unit price of the coal, for the quantity represented by the analysis report, shall be decreased \$0.50 (fifty cents) per ton. The amount of these damages will be deducted from any payments due the Contractor. If payments are no longer due the Contractor, the Contractor shall promptly pay to the Government the amount of damages so determined.

(b) Assess damages against the Contractor based upon the unit price of the coal as follows:

For each 1.0 percent (one percent) that the ash content exceeds the Minimum Specification Quality Required (DESC Form 6.37-S), the unit price of the coal, for the quantity represented by the analysis report, shall be decreased \$0.25 (twenty-five cents) per ton. The amount of these damages will be deducted from any payments due the Contractor. If payments are no longer due the Contractor, the Contractor shall promptly pay to the Government the amount of damages so determined. The ash penalty shall be assessed only when the delivered ash content of the coal exceeds the minimum specification quality required for ash by a full percent. Thereafter, penalties will be assessed for each fraction of a percent.

EXAMPLES:

| <u>ASH SPECIFICATION</u> | <u>DELIVERED ASH</u> | <u>PENALTY</u> |
|--------------------------|----------------------|----------------|
| 6.0 | 6.5 | NONE |
| 6.0 | 7.0 | \$.25 |
| 6.0 | 7.5 | \$.38 |

E33.03 Cont'd.

(c) Require the Contractor to pay to the Government any penalties or fines imposed upon any using activity by any Federal, State, or local authority, arising out of the delivery of coal containing sulfur in excess of the Minimum Specification Quality Required, or arising out of the delivery of coal with an ash content in excess of the Minimum Specification Quality Required. The amount of these penalties or fines will be deducted from any payments due the Contractor. If payments are no longer due the Contractor, the Contractor shall promptly pay to the Government the amount of such penalties or fines.

(d) (1) **FOR ALASKA.** The Minimum Specification Quality Required for as received sulfur and ash shall be used to calculate damages on a weighted monthly average basis, consolidated quarterly and concurrently, with debit and credit calculation for heat value applied in accordance with the SAMPLING AND EVALUATION (COAL) (ALASKA) clause.

(2) **ALL OTHERS.** The Minimum Specification Quality Required for dry sulfur and ash shall be used to calculate damages on a per shipment basis. (DESC 52.246-9FR5)

E33.06 MINES (DESC APR 1997)

(a) Coal shall not be furnished from mines or tipples other than those stated on DESC Form 6.37A (Award Continuation Sheet) for each installation or any modification thereto. Coal shipped from any other source may be rejected by the Government and the contract may be terminated pursuant to paragraphs (f), Excusable Delays, and (m), Termination for Cause, of the CONTRACT TERMS AND CONDITIONS - COMMERCIAL ITEMS clause of the contract.

(b) Notwithstanding the above, the Government reserves the right to accept or deny the Contractor's written request to furnish coal from mines or tipples in addition to those shown in the contract award Schedule. When additional mines or tipples are added to the Schedule by the Government at the written request of the Contractor, the Government reserves the right to require consideration in the form of a price reduction.

(DESC 52.246-9F60)

E35.02 REQUESTS FOR WAIVERS AND DEVIATIONS (DESC JUL 2000)

(a) The following procedures apply to requests for specification waivers.

(1) Requests for waivers and deviations shall be submitted by the Contractor to the Contracting Officer with a copy to the Quality Representative (QR). Each request shall provide the following information: Contractor name; contract number; contract line item and product, if applicable; clause number, paragraph and subparagraph, as appropriate; the nature of the request; the reason for the request; the corrective action being taken by the Contractor to correct and prevent recurrence of the condition(s) causing the nonconformance; and equitable price adjustment offered over the administrative fee. In extraordinary situations, the Contractor may initially submit the request for a deviation or waiver through the cognizant QR to the Contracting Officer or the Contracting Officer's Representative (COR) in the Bulk Fuels Business Unit, Product Technical and Standardization Division, Defense Energy Support Center (DESC). Extraordinary situation requests shall be submitted formally to the Contracting Officer prior to close of business of the next DESC normal workday. As used in this clause, the term "extraordinary situation" means the matter cannot await resolution until the DESC normal workday (0800 to 1630 hours), Monday through Friday - Federal holidays excluded. In addition, if either the Contracting Officer or the COR cannot be reached, the Duty Officer shall be contacted and provided the necessary information to forward to the proper individuals as soon as possible. The Duty Officer's telephone number is (800) 286-7633, (703) 767-8420, or DSN 427-8420.

(2) If the waiver is granted, the contract will be modified to provide an equitable price reduction or other adequate consideration commensurate with the waiver being granted. If the situation dictates, a waiver may be granted without prior agreement on price adjustment or other consideration subject to agreement by the Contractor, or its representative, to subsequent negotiation. Such agreement shall be documented on the receiving document or other appropriate correspondence. After negotiations, failure to agree on adequate consideration shall be a dispute concerning a question of fact within the meaning of paragraph (d), Disputes, of the CONTRACT TERMS AND CONDITIONS -- COMMERCIAL ITEMS clause of this contract.

(3) If the waiver is granted and the nonconforming supplies are accepted, then in no event will consideration be less than \$250 to cover administrative costs, plus any additional cost of Government inspection or tests if reinspection or retest is necessary.

(4) If the waiver is granted modifying this contract but the supplies accepted are nevertheless determined to be in conformity with contract specifications, the Contractor shall still be obligated to pay the consideration originally agreed upon in support of the waiver. If, however, this consideration exceeds \$500, a second contract modification shall be issued reducing the Contractor's obligation to \$500 (the administrative cost of issuing the two required modifications).

(b) When notification of nonconforming supplies is received after the supplies have been accepted, and the Government determines not to exercise its right to require repairs or replacement of nonconforming supplies or reperformance of nonconforming services at no increase in contract price under the INSPECTION OF SUPPLIES - FIXED-PRICE clause or the CONTRACT TERMS AND CONDITIONS - COMMERCIAL ITEMS clause, then in no event will consideration be less than \$250 to cover administrative costs. This \$250 fee is in addition to--

(1) Consideration commensurate with the extent of nonconforming supplies; and

(2) Cost of Government inspection or tests if reinspection or retest is necessary.

The administrative fee will apply to each claim letter issued for off-specification product delivered to an activity. (DESC 52.246-9FR1)

E40 MATERIAL INSPECTION AND RECEIVING REPORT (DEC 1991)

At the time of each delivery of supplies or services under this contract, the Contractor shall prepare and furnish to the Government a Material Inspection and Receiving Report in the manner and to the extent required by Appendix F, Material Inspection and Receiving Report, of the Defense FAR Supplement.

(DFARS 252.246-7000)

DELIVERIES OR PERFORMANCE**F3 TRANSPORT TRUCK AND/OR TRUCK AND TRAILER FREE TIME AND DETENTION RATES (PC&S/COAL) (DESC APR 1998)**

(a) Upon arrival of Contractor's transport truck or truck and trailer, the receiving activity shall promptly designate the delivery point into which the load is to be discharged. Contractor shall be paid for detention beyond free time for delays caused by the Government. A minimum of one hour free time is required.

(1) Free time for unloading a transport truck, excluding multiple drop deliveries, or truck and trailer in excess of one hour:

_____.

(2) Rate for detention beyond free time: _____.

The above will not be considered in the evaluation of offers for award.

(b) Notwithstanding the above, the Government is entitled to at least as much free time as is allowed by the common carrier or that the Contractor normally allows its regular commercial customers, whichever is greater. In addition, the Government will not pay more in detention rates than the actual rate charged by the common carrier or the rate the Contractor normally charges its regular commercial customers, whichever is lower. UNLESS OFFEROR INDICATES OTHERWISE, FREE TIME WILL BE CONSIDERED UNLIMITED.

(c) **DETENTION COSTS.** Detention costs do not apply to tank wagon or to multiple drop transport truck or truck and trailer deliveries. Detention costs will be the sole responsibility of the activity incurring them. Any invoices for detention costs will be forwarded directly to the activity receiving the product.

(DESC 52.247-9FK1)

F17.04 CONDITIONS OF RAIL DELIVERIES (COAL) (DESC JUN 1999)

When the Schedule calls for delivery by railcar, the following conditions shall apply:

(a) Each shipment from a single loading point shall be considered as one bulk lot as defined under the QUALITY PROVISIONS clause and shall be represented by one gross sample if the lot is no greater in quantity than 1,000 tons.

(b) The gross sample shall be collected from the entire lot, prepared for analysis and tested to determine chemical and physical properties in accordance with the QUALITY PROVISIONS clause. The analytical report and DD Form 250 shall reference the lot number it represents.

(c) The analytical test report and DD Form 250 pursuant to the CONTRACTOR INSPECTION RESPONSIBILITIES clause shall be forwarded to the destination by facsimile or First Class U.S. Mail to arrive prior to or concurrent with arrival of the shipment.

(d) No shipment will be made of coal that does not conform to the minimum specification quality that was advertised as required by the activity unless the Contracting Officer (CO) grants permission to ship.

(e) Permission to ship will be requested by the Contractor or its authorized representative, and, in the event the CO grants such permission, the DD Form 250 will be annotated with the following statement in Block 23:

"Test results at source indicate their shipment of _____ cars does not meet minimum Specification Quality Required: e.g., Ash _____% in lieu of Spec. Limit of _____%. DESC (CO) grants permission to ship subject to the rights reserved by the Government under this contract. Reference telecon CO/DESC-BQ on _____ (date)." The Contractor will not submit an invoice for any shipment that does not conform to the minimum specification until a modification is executed by the CO.

(f) The receiving activity will inspect each shipment in accordance with the DESTINATION INSPECTION AND ACCEPTANCE clause. Each shipment may be sampled and tested in accordance with the SAMPLING AND EVALUATION clause.

(g) Within 5 days of receipt of a delivery order from the ordering activity, the Contractor will submit a production/shipping schedule to the Contract Administrator, the Quality Assurance Representative, and the activity boiler plant point of contact. Once submitted, any significant changes must also be addressed in writing.

(DESC 52.242-9FH5)

(d) No shipment will be loaded or shipped from lots that do not conform to the minimum specification quality required unless the Contracting Officer (CO) grants permission to ship.

(e) Permission to ship will be requested by the Contractor or its authorized representative, and, in the event the CO grants such permission, the DD Form 250 will be annotated with the following statement:

"Test results at source indicate this shipment of _____ trucks does not meet minimum Specification Quality Required: e.g., Ash _____ % in lieu of Spec. Limit of _____ %. DESC (CO) grants permission to ship subject to the rights reserved by the Government under this contract. Reference telecon CO/DESC-QE on _____ (date)."

(f) The receiving activity at the destination will inspect each truck in accordance with the DESTINATION INSPECTION AND ACCEPTANCE clause. Each shipment may be sampled and tested in accordance with the SAMPLING AND EVALUATION clause.

(g) Within 5 days of receipt of a delivery order from the ordering activity, the Contractor will submit a production/shipping schedule to the Contract Administrator, the Quality Assurance Representative, and the activity boiler plant point of contact. Once submitted, any significant changes must also be addressed in writing.

(a) Sampling will be performed at the closest feasible site prior to delivery to the customer, agreed upon during negotiations.

(b) Product shall be represented by a gross sample. A gross sample shall be considered one bulk lot as defined under the QUALITY PROVISIONS clause.

(1) The coal will be sampled in accordance with ASTM D 2234. Increment collection will be Condition A (Stopped-belt cut) or Condition B (Full-stream cut).

(2) The number of increments will be in accordance with Table 2 of ASTM D 2234 for lot size up to and including 1,000 tons.

(3) For lot size of over 1,000 tons, the number of increments, as stated in Table 2, will be increased as follows:

where: N1 = number of increments specified in Table 2

N2 = number of increments required

For example, a 1500-ton lot will require a minimum of 43 increments of 6 lbs. minimum weight each and be systematically collected from the entire lot.

(c) The gross sample will be prepared for analysis and tested to determine chemical and physical properties in accordance with the QUALITY PROVISIONS clause.

(d) Each barge load will be assigned a shipment number to be referenced on the analytical test report and the DD Form 250.

(i) The SHIPMENT AND ROUTING clause, paragraph (f), will prevail for each truckload delivered from the stockpile.

(j) The WEIGHTS AND UNIT OF PURCHASE clause, paragraph (c), shall govern quantities delivered to the destination.

(k) The receiving activity at the destination will inspect each truck in accordance with the DESTINATION INSPECTION AND ACCEPTANCE clause. Each shipment may be sampled and tested in accordance with the SAMPLING AND EVALUATION clause.

(l) Within 5 days of receipt of a delivery order from the ordering activity, the Contractor will submit a production/shipping schedule to the Contract Administrator, the Quality Assurance Representative, and the activity boiler plant point of contact. Once submitted, any significant changes must also be addressed in writing.

(2) Supplies shall be delivered to the destination consignee's wharf (if destination is a port city and supplies are for export), warehouse unloading platform, or receiving dock, at the expense of the Contractor. The Government shall not be liable for any delivery, storage, demurrage, accessorial, or other charges involved before the actual delivery (or "constructive placement" as defined in carrier tariffs) of the supplies to the destination, unless such charges are caused by an act or order of the Government acting in its contractual capacity. If rail carrier is used, supplies shall be delivered to the specified unloading platform of the consignee.

If motor carrier (including "piggyback") is used, supplies shall be delivered to truck tailgate at the unloading platform of the consignee, except when the supplies delivered meet the requirements of Item 568 of the National Motor Freight Classification for "heavy or bulky freight." When supplies meeting the requirements of the referenced Item 568 are delivered, unloading (including movement to the tailgate) shall be performed by the consignee, with assistance from the truck driver, if requested. If the Contractor uses rail carrier or freight forwarded for less than carload shipments, the Contractor shall ensure that the carrier will furnish tailgate delivery, when required, if transfer to truck is required to complete delivery to consignee.

(b) The Contractor shall-

(1) (i) Pack and mark the shipment to comply with contract specifications; or

(ii) In the absence of specifications, prepare the shipment in conformance with carrier requirements;

(2) Prepare and distribute commercial bills of lading;

(3) Deliver the shipment in good order and condition to the point of delivery specified in the contract;

(4) Be responsible for any loss of and/or damage to the goods occurring before receipt of the shipment by the consignee at the delivery point specified in the contract;

(5) Furnish a delivery schedule and designate the mode of delivering carrier; and

(6) Pay and bear all charges to the specified point of delivery.

(FAR 52.247-34)

F21 CONTRACTOR NOTICE REGARDING LATE DELIVERY (DESC APR 1968)

In the event the Contractor encounters difficulty in meeting performance requirements, or when it anticipates difficulty in complying with the contract delivery Schedule or date, it shall immediately notify the Contracting Officer, in writing, giving pertinent details; PROVIDED, however, that this data shall be informational only in character and that this provision shall not be construed as a waiver by the Government of any delivery Schedule or date or of any rights or remedies provided by law or under this contract.

(DESC 52.242-9FM1)

F62 SHIPMENT AND ROUTING (COAL) (DESC JUN 1999)

(a) Upon receipt of a delivery order, the Contractor shall immediately proceed to make shipment, in the quantity stated, to the installation specified, at the rate of delivery required, and by the method specified in the Schedule. This does not affect the Contractor's obligations concerning quality inspection by the Government Quality Representative. Within 5 days of receipt of a delivery order from the ordering activity, the Contractor will submit a production/shipping schedule to the Contract Administrator, the Quality Assurance Representative, and the activity boiler plant point of contact. Once submitted, any significant changes must also be addressed in writing.

(b) If the coal is to be delivered f.o.b. railroad cars at the mine, the Contractor shall ship the coal under commercial shipping documents.

(1) When shipped under commercial bills of lading, such bills of lading shall be marked "Government Property, Collect" and shall be mailed promptly to the consignee for conversion to Government bills of lading at destination.

(2) When shipped under commercial documents other than commercial bills of lading, such documents shall be marked "Government Property, Collect." The carrier's destination freight bills will be converted to Government bills of lading at destination.

(3) Routing instructions for f.o.b. origin contracts will be furnished to the Contractor by the Alternative Fuels Directorate of the Defense Energy Support Center.

(c) If the delivery schedule should require shipment by the Contractor prior to his receipt of routing instructions as outlined in (b) above, the Contractor shall immediately proceed with shipments via the cheapest and most direct route to the receiving activity at the railhead and by the delivering railroad designated in the contract or in the preliminary wire or letter notice of award.

(d) The Contractor shall indicate on all shipping documents and notices of shipments all names, locations, and shipping points of the mines and the seam (or blends of mines and/or seams) from which the coal originates, the contract number, the quantity, and the exact size of the coal shipped. For example, if the coal shipped has a size of 1 1/4" x 1/4", then this size is to be shown on all shipping documents.

(e) In addition, with all truck deliveries, regardless of point of weighing, the Contractor shall furnish a statement setting forth the name and location of the mine and the seam (or blends of mines and/or seams) from which the coal was shipped. The Contractor shall also furnish each truck with written instructions listing the procedures for delivery, including hours of operation and the delivery limitations.

(DESC 52.247-9FM5)

F73.02 DUST SUPPRESSION/FREEZE CONDITIONING OF COAL (DESC OCT 1994)

(a) DUST SUPPRESSION refers to the preparation of coal using a process or medium to achieve effective dust control. FREEZE CONDITIONING is a process to reduce coal from freezing together or to a conveyance, which would restrict the product flow.

(b) When called for under the Schedule, coal will be treated for dust suppression and/or freeze conditioning using a nonpetroleum-based medium process that permits a total uniform application. The medium used will be one that is available commercially and normally used for such purposes, subject to review by DESC. Application of the medium will be per manufacturer's direction, subject to modification by DESC, and will be accomplished immediately prior to loading into a conveyance or stockpiling. However, when multiple transfers or transportation modes occur during shipment, treatment will take place immediately prior to stockpiling or loading at the specified shipping point.

(c) When both dust suppression and freeze conditioning are called for in the Schedule, the process used must satisfy both requirements, subject to review by DESC.

(d) The Contractor certifies that the treatment medium and/or process is in compliance with all Federal, State, and local EPA requirements, both at the treatment location and at the using activity.

(e) The offeror shall submit the following information with the offer:

(1) The name and address of the manufacturer of the treatment medium:

(2) The product brand name:

(3) Chemical nomenclature (in addition, provide product's technical data package, if applicable):

(4) Product's Material Safety Data Sheet.

Failure to submit this information with the offer may render it nonresponsible.

(f) The Contractor shall notify the Contracting Officer if the manufacturer of the treatment medium and/or process is changed.

(DESC 52.211-9F50)

F104 VARIATION IN QUANTITY (COAL) (DESC NOV 1991) (DEVIATION)

(a) The Government will not accept any variation from the quantity specified in a particular order under any item of the Schedule except to the extent of that quantity required to fill the car or truck that is the last car or truck necessary to complete the contract or order.

(b) If coal is delivered in excess of the variations in quantity specified in (a) above, the Contractor shall remove such over-shipment at its own expense.

(DESC 52.211-9FG5)

F106.01 WEIGHTS AND UNIT OF PURCHASE (COAL) (DESC APR 1990)

Unless otherwise stated in the Schedule, the unit of purchase shall be the net ton of 2,000 pounds. Payment hereunder shall be on the basis of weight determined as follows:

(a) (1) **FOR ALASKA.** The railroad scale weights at the usual point of weighing will govern payment except when belt scales are available at destination. When belt scales are available at destination, belt scale weight shall be used for payment.

(2) **ALL OTHERS.** Regardless of the delivery point, if the coal is transported to destination by rail, the railroad scale weights at the usual point of weighing will govern payment except when statutes or regulations require that shipments be reweighed at destination in which event the weight so determined shall govern.

(b) Regardless of the delivery point, if the coal is transported part way to destination by vessel or barge, the weights furnished by the railroad at the loading pier will be the basis on which payment shall be made.

(c) Regardless of the delivery point, if the coal is transported to destination by truck and the Government has adequate scales at the destination, each truckload will be weighed by the Government at the destination. In the event the coal is weighed at destination, the Government shall furnish the Contractor with a certificate showing the gross, tare, and net weight of each truckload. Whether or not adequate scales are available at the destination, the Contractor shall furnish the Government with a certified licensed weighmaster's certificate of weight for each truckload. In the latter instance, the coal shall be weighed on the scales nearest the destination which are operated by, or under the jurisdiction of, a certified weighmaster. Invoices submitted for payment shall be calculated by using the Contractor's adjusted net weight or the Government's net weight, whichever is less.

(d) If washed coal is to be delivered f.o.b. cars at the mine, the Contractor shall notify the scale agents when the cars are forwarded to the scales for weighing and waybilling as to which cars contain wet coal in order to assure that the Government will receive tariff deductions. This shall apply only where tariffs provide for weight allowances on washed coal.

(e) Weights of coal purchased under conditions not covered by the foregoing shall be determined by agreement between the Contracting Officer and the Contractor, based on prevailing commercial practice.

(DESC 52.247-9FL1)

F108 DELIVERY OF EXCESS QUANTITIES (SEP 1989)

The Contractor is responsible for the delivery of each item quantity within allowable variations, if any. If the Contractor delivers and the Government receives quantities of any item in excess of the quantity called for (after considering any allowable variation in quantity), such excess quantities will be treated as being delivered for the convenience of the Contractor. The Government may retain such excess quantities up to \$250 in value without compensating the Contractor therefore, and the Contractor waives all right, title, or interests therein. Quantities in excess of \$250 will, at the option of the Government, either be returned at the Contractor's expense or retained and paid for by the Government at the contract unit price.

G9.09 PAYMENT BY ELECTRONIC FUNDS TRANSFER - CENTRAL CONTRACTOR REGISTRATION (MAY 1999)

(a) METHOD OF PAYMENT.

(1) All payments by the Government under this contract, shall be made electronic funds transfer (EFT), except as provided in paragraph (a)(2) of this clause. As used in this clause, the term EFT refers to the funds transfer and may also include the information transfer.

(2) In the event the Government is unable to release one or more payments by EFT, the Contractor agrees to either--

(i) Accept payment by check or some other mutually agreeable method of payment; or

(ii) Request the Government to extend the payment due date until such time as the Government can make payment by EFT (but see paragraph (d) of this clause).

(b) CONTRACTOR'S EFT INFORMATION. The Government shall make payment to the Contractor using the EFT information contained in the Central Contractor Registration (CCR) database. In the event that the EFT information changes, the Contractor shall be responsible for providing the updated information to the CCR database.

(c) MECHANISMS FOR EFT PAYMENT. The Government shall make payment by EFT through either the Automated Clearing House (ACH) network, subject to the rules of the National Automated Clearing House Association, or the Fedwire Transfer System. The rules governing Federal payments through the ACH are contained in 31 CFR Part 210.

(d) SUSPENSION OF PAYMENT. If the Contractor's EFT information in the CCR database is incorrect, then the Government need not make payment to the Contractor under this contract until correct EFT information is entered into the CCR database; and any invoice or contract financing request shall be deemed not to be a proper invoice for the purpose of prompt payment under this contract. The prompt payment terms of the contract regarding notice of an improper invoice and delays in accrual of interest penalties apply.

(e) CONTRACTOR EFT ARRANGEMENTS. The Contractor has identified multiple payment receiving points (i.e., more than one remittance address and/or EFT information set) in the CCR database, and the Contractor has not notified the Government of the payment receiving point applicable to this contract, the Government shall make payment to the first payment receiving point (EFT information set or remittance address as applicable) listed in the CCR database.

(f) LIABILITY FOR UNCOMPLETED OR ERRONEOUS TRANSFERS.

(1) If an uncompleted or erroneous transfer occurs because the Government used the Contractor's EFT information incorrectly, the Government remains responsible for--

(i) Making a correct payment;

(ii) Paying any prompt payment penalty due; and

(iii) Recovering any erroneously directed funds.

(2) If an uncompleted or erroneous transfer occurs because the Contractor's EFT information was incorrect or was revised within 30 days of Government release of the EFT payment transaction instruction to the Federal Reserve System, and--

(i) If the funds are no longer under the control of the payment office, the Government is deemed to have made payment and the Contractor is responsible for recovery of any erroneously direct funds; or

(ii) If the funds remain under the control of the payment office, the Government shall not make payment and the provisions of paragraph (d) of this clause shall apply.

(g) EFT AND PROMPT PAYMENT. A payment shall be deemed to have been made in a timely manner in accordance with the prompt payment terms of this contract if, in the EFT payment transaction instruction released to the Federal Reserve System, the date specified for settlement of the payment is on or before the prompt payment due date, provided the specified payment date is a valid date under the rules of the Federal Reserve System.

(h) EFT AND ASSIGNMENT OF CLAIMS. If the Contractor assigns the proceeds of this contract as provided for in the assignment of claims terms of this contract, the Contractor shall require a condition of any such assignment that the assignee shall register in the CCR database and shall be paid by EFT in accordance with the terms of this clause. In all respects, the requirements of this clause shall apply to the assignee as if it were the Contractor. EFT information that shows the ultimate recipient of the transfer to be other than the Contractor, in the absence of a proper assignment of claims acceptable to the Government, is incorrect within the meaning of paragraph (d) of this clause.

(i) LIABILITY FOR CHANGE OF EFT INFORMATION BY FINANCIAL AGENT. The Government is not liable for errors resulting from changes in EFT information made by the Contractor's financial agent.

(j) PAYMENT INFORMATION. The payment or disbursing office shall forward to the Contractor available payment information that is suitable for transmission as of the date of release of the EFT instruction to the Federal Reserve System. The Government may request the Contractor to designate a desired format and method(s) for delivery of payment information from a list of formats and methods the payment office is capable of executing. However, the Government does not guarantee that any particular format or method of delivery is available at any particular payment office and retains the latitude to use the format and delivery method most convenient to the Government. If the Government makes payment by check in accordance with paragraph (a) of this clause, the Government shall mail the payment information to the remittance address contained in the CCR database. (c) The Contractor must assert its right to an adjustment under this clause within 30 days from the date of receipt of the written order. However, if the Contracting Officer decides that the facts justify it, the Contracting Officer may receive and act upon a proposal submitted before final payment of the contract.

(d) If the Contractor's proposal includes the cost of property made obsolete or excess by the change, the Contracting Officer shall have the right to prescribe the manner of the disposition of the property.

(e) Failure to agree to any adjustment shall be a dispute under the DISPUTES clause. However, nothing in this clause shall excuse the Contractor from proceeding with the contract as changed. (FAR 52.243-1)

I11.01-2 ADMINISTRATIVE COST OF TERMINATION FOR CAUSE -- COMMERCIAL ITEMS (DESC FEB 1996)

- (a) In the event this contract is terminated for cause, in whole or in part, the Government will incur administrative costs.
- (b) The Contractor agrees to pay all administrative costs associated with a contract termination action. The minimum amount the Contractor shall pay for each termination action is \$500. This payment for administrative costs is in addition to any excess procurement costs and any other remedies or damages resulting from the termination.

I28.01 FEDERAL, STATE, AND LOCAL TAXES (DESC NOV 1993) (DEVIATION)

(a) As used in this clause--

Contract date means the date set for bid opening or, if this is a negotiated contract or a modification, the date set for best and final offers.

All applicable Federal, State, and local taxes and duties means all taxes and duties that the taxing authority, including Puerto Rico and other possessions of the United States, are imposing and collecting on the transactions or property covered by this contract pursuant to written ruling or regulation in effect on the contract date.

After-imposed tax means any new or increased Federal, State, or local excise tax or duty, except social security or other employment taxes, on the transactions or property covered by this contract that the Contractor is required to pay or bear the burden of as the result of legislative, judicial, or administrative action taking effect after the contract date.

After-relieved tax means any amount of Federal, State, or local excise tax or duty, except social security or other employment taxes, that would otherwise have been payable on the transactions or property covered by this contract, but which the Contractor is not required to pay or bear the burden of, or for which the Contractor obtains a refund or drawback, as the result of legislative, judicial, or administrative action taking effect after the contract date.

(b) The contract price includes all applicable Federal, State, or local taxes and duties, except as may be otherwise provided. (For petroleum contracts, see the FEDERAL, STATE, AND LOCAL TAXES EXCLUDED FROM CONTRACT PRICE clause.)

(c) The contract price shall be increased by the amount of any after-imposed tax if the Contractor states in writing that the contract price does not include any contingency for such tax.

(d) The contract price shall be decreased by the amount of any after-relieved tax.

(e) The contract price shall also be decreased by the amount of any excise tax or duty, except social security or other employment taxes, that the Contractor is required to pay or bear the burden of, or does not obtain a refund of, through the Contractor's fault, negligence, or failure to follow instructions of the Contracting Officer.

(f) The Contractor shall promptly notify the Contracting Officer of all matters relating to any excise tax or duty that reasonably may be expected to result in either an increase or decrease in the contract price and shall take appropriate action as the Contracting Officer directs.

(g) The Government shall, without liability, furnish evidence appropriate to establish exemption from any Federal, State, or local tax when the Contractor requests such evidence and a reasonable basis exists to sustain the exemption. (DESC 52.229-9F15)

I33 INTEREST (JUN 1996)

(a) Except as otherwise provided in this contract under a PRICE REDUCTION FOR DEFECTIVE COST OR PRICING DATA clause or a COST ACCOUNTING STANDARDS clause, all amounts that become payable by the Contractor to the Government under this contract (net of any applicable tax credit under the Internal Revenue Code (26 U.S.C. 1481)) shall bear simple interest from the date due until paid unless paid within 30 days of becoming due. The interest rate shall be the interest rate established by the Secretary of the Treasury as provided in Section 12 of the Contract Disputes Act of 1978 (Public Law 95-563), which is applicable to the period in which the amount becomes due, as provided in paragraph (b) of this clause, and then at the rate applicable for each six-month period as fixed by the Secretary until the amount is paid.

(1) The date fixed under this contract.

(2) The date of the first written demand for payment consistent with this contract, including any demand resulting from a default termination.

(3) The date the Government transmits to the Contractor a proposed supplemental agreement to confirm completed negotiations establishing the amount of debt.

(4) If this contract provides for revision of prices, the date of written notice to the Contractor stating the amount of refund payable in connection with a pricing proposal or a negotiated pricing agreement not confirmed by contract modification.

(FAR 52.232-17)

I84.01 REQUIREMENTS (ALT III) (OCT 1995)

(a) This is a requirements contract for the supplies or services specified, and effective for the period stated in the Schedule. The quantities of supplies or services specified in the Schedule are estimates only and are not purchased by this contract. Except as this contract may otherwise provide, if the Government's requirements do not result in orders in the quantities described as "estimated" or "maximum" in the Schedule, that fact shall not constitute the basis for an equitable price adjustment.

(b) Delivery or performance shall be made only as authorized by orders issued in accordance with the ORDERING clause. Subject to any limitations in the ORDER LIMITATIONS clause or elsewhere in this contract, the Contractor shall furnish to the Government all supplies or services specified in the Schedule and called for by orders issued in accordance with the ORDERING clause. The Government may issue orders requiring delivery to multiple destinations or performance at multiple locations.

(c) The Government's requirements for each item or subitem of supplies or services listed in the SET-ASIDE QUANTITIES clause are being purchased through one non-set-aside contract and one set-aside contract. Therefore, the Government shall order from each Contractor approximately one-half of the total supplies or services specified in the Schedule that are required to be purchased by the specified Government activity or activities. The Government may choose between the set-aside Contractor and the non-set-aside Contractor in placing any particular order. However, the Government shall allocate successive orders, in accordance with its delivery requirements, to maintain as close a ratio as is reasonably practicable between the total quantities ordered from the two Contractors.

(d) The Government is not required to purchase from the Contractor requirements in excess of any limit on total orders under this contract.

(e) If the Government urgently requires delivery of any quantity of an item before the earliest date that delivery may be specified under this contract, and if the Contractor will not accept an order providing for the accelerated delivery, the Government may acquire the urgently required goods or services from another source.

(f) Any order issued during the effective period of this contract and not completed within that period shall be completed by the Contractor within the time specified in the order. The contract shall govern the Contractor's and Government's rights and obligations with respect to that order to the same extent as if the order were completed during the contract's effective period; PROVIDED, that the Contractor shall not be required to make any deliveries under this contract after May 31, 2002.

(FAR 52.216-21/ALT III)

I86.02 DELIVERY-ORDER LIMITATIONS (COAL) (DESC JUN 1999)

(a) **MINIMUM ORDER.** When the Government requires supplies or services covered by this contract in an amount of less than a car load if by rail, or a truck load if by truck, the Government is not obligated to purchase, nor is the Contractor obligated to furnish, those supplies or services under the contract.

(b) **MAXIMUM ORDER.** The Contractor is not obligated to honor any order for a single item in excess of (see Schedule) net tons per month.

(c) Since this is a requirements contract, the Government is not required to order a part of any one requirement from the Contractor if that requirement exceeds the maximum order limitations in (b) above.

(d) Notwithstanding (b) and (c) above, the Contractor shall honor any order exceeding the maximum order limitations in (b) above, unless that order (or orders) is returned to the ordering office within five days after issuance, with written notice stating the Contractor's intent not to ship the item (or items) called for and the reasons. Upon receiving this notice, the Government may acquire the supplies or services from another source.
(DESC 52.216-9FM5)

- (3) The offeror is in conformance with the Business Activity Targets set forth in its approved business plan or any remedial action directed by the SBA.

(b) By submission of its offer, the offeror represents that it meets all of the criteria set forth in paragraph (a) of this clause.

(c) Any award resulting from this solicitation will be made directly by the Contracting Officer to the successful 8(a) offeror selected through the evaluation criteria set forth in this solicitation. (DFARS 252.219-7010/Alt A)

(d) (1) **AGREEMENT.** A small business concern submitting an offer in its own name agrees to furnish, in performing the contract, only end items manufactured or produced by small business concerns in the United States. The term "United States" includes its territories and possessions, the Commonwealth of Puerto Rico, the trust territory of the Pacific Islands, and the District of Columbia. If this procurement is processed under simplified acquisition procedures and the total amount of this contract does not exceed \$25,000, a small business concern may furnish the product of any domestic firm. This subparagraph does not apply in connection with construction or service contracts.

(2) The _____ (insert name of SBA's contractor) will notify the DESC Contracting Officer in writing immediately upon entering an agreement (either oral or written) to transfer all or part of its stock or other ownership interest to any other party. (FAR 52.219-18)

I171.10 SECTION 8(a) DIRECT AWARD (JUN 1998)

(a) This contract is issued as a direct award between the contracting office and the 8(a) Contractor pursuant to the Memorandum of Understanding dated May 6, 1998, between the Small Business Administration (SBA) and the Department of Defense. Accordingly, the SBA is not a party to this contract. The SBA does retain responsibility for 8(a) certification, for 8(a) eligibility determinations and related issues, and for providing counseling and assistance to the 8(a) Contractor under the 8(a) Program. The cognizant SBA district office is--

(b) The contracting office is responsible for administering the contract and for taking any action on behalf of the Government under the terms and conditions of the contract; provided that the contracting officer shall give advance notice to the SBA before it issues a final notice terminating performance, either in whole or in part, under the contract. The contracting office also shall coordinate with the SBA prior to processing any novation agreement. The contracting office may assign contract administration functions to a contract administration office.

(c) The Contractor agrees that--

(1) It will notify the Contracting Officer, simultaneous with the notification to the SBA (as required by SBA's 8(a) regulations at 13 CFR 124.308), when the owner or owners upon whom 8(a) eligibility is based plan to relinquish ownership or control of the concern. Consistent with Section 407 of Pub. L. 100-656, transfer of ownership or control shall result in termination of the contract for convenience, unless the SBA waives the requirement for termination prior to the actual relinquishing of ownership and control; and

(2) It will not subcontract the performance of any of the requirements of this contract without the prior written approval of the SBA and the Contracting Officer.

(DFARS 252.219-7009)

I209.12 EXTENSION PROVISIONS (COAL) (DESC MAY 1996)

(a) The DESC Contracting Officer reserves the right to unilaterally extend this contract on the same terms and conditions one or more times for a total of no more than three months. Notice of contract extension will be furnished to the Contractor 30 days prior to expiration of this contract or any extension thereof. However, nothing in this clause precludes the Contractor from agreeing to an extension of the contract if the DESC Contracting Officer fails to issue the notice within the 30 day time frame.

(b) The foregoing extension may be exercised by the DESC Contracting Officer where continued performance is required until a follow-on contract is awarded or, in the event a follow-on contract has been awarded, until a succeeding Contractor is positioned to commence performance.

(c) Extension of this contract shall be considered to have been accomplished at the time the DESC Contracting Officer provides written notification to the Contractor by facsimile or by mail.

(DESC 52.217-9F25)

I209.13 OPTION TO INCREASE QUANTITY (COAL) (DESC JUN 1996)

The Ordering Officer, by written notice to the Contractor, may increase the quantity of supplies called for herein by an amount not to exceed 10 percent at any time during the specified ordering period.

(DESC 52.217-9F55)

I211 ORDERING (OCT 1995)

(a) Any supplies and services to be furnished under this contract shall be ordered by issuance of delivery orders or task orders by the individuals or activities designated in the Schedule. Such orders may be issued from May 1, 2001, through April 30, 2002.

(b) All delivery orders or task orders are subject to the terms and conditions of this contract. In the event of conflict between a delivery order or task order and this contract, the contract shall control.

(c) If mailed, a delivery order or task order is considered "issued" when the Government deposits the order in the mail. Orders may be issued orally, by facsimile, or by electronic commerce methods only if authorized in the Schedule.

However, in such case, the offeror shall state below the mine(s) exempted by this paragraph (b):

(c) Offerors who offer coal from tipples or preparation plants must clearly identify the mine source(s) and must provide a properly executed AUTHORIZATION AND MINE DESCRIPTION form signed by an authorized official of the Operating Company and/or the Mine Owner providing the coal.
